

# Change the color of the Help tab – on-prem

---

 [support.visualsp.com/knowledge-base/change-the-color-of-the-help-tab-on-prem/](https://support.visualsp.com/knowledge-base/change-the-color-of-the-help-tab-on-prem/)

July 9, 2019

Applies to: **VisualSP Classic**

The color of the Help tab in VisualSP On-prem can be changed in a custom CSS or master page using the following CSS:

```
#Ribbon.VisualSPApp.Tab.Help-title a span {  
background-color: blue;  
color: white !important;  
}
```
