

Renaming the Help Tab

support.visualsp.com/knowledge-base/renaming-the-help-tab/

December 29, 2017

Applies to: **VisualSP Classic**

Overview

You can re-brand the Help tab by changing its text to reflect your organization name or help program. This needs to be done from SharePoint PowerShell on the SharePoint server.

Brand your Help tab

From the prompt, type **Set-VisualSPHelpTabLabel** and respond to the prompts that follow. If you leave any responses blank, your change will not take effect.

- Label: This is what the name of the Help tab will become
- Description: This will pop up over the tab when a user hovers over it.
- LCID: This is the Locale ID (e.g. 1033 for English-United States)

```
Administrator: SharePoint 2013 Management Shell
PS C:\Users\Administrator> set-visualsphelptablabel
cmdlet Set-VisualSPHelpTabLabel at command pipeline position 1
Supply values for the following parameters:
(Type ?? for Help.)
Label: VisualSP
Description: Help items for VisualSP system
LCID: 1033
WARNING: Tab details are cached for 60 minutes by each web application. An
IISRESET may be necessary for you to see your changes.
PS C:\Users\Administrator> _
```
